Every submarine contains three tons of tin.

To the People of this Community:

HURRY-UP JOB!

The Third War Loan is a hurry-up job for the home front. The government must rush billions of dollars to the fighting fronts in the form of extra munitions.

3rd WAR LOAN

Buy an Extra $100 Bond

It's actually a matter of life or death for Americans in uniform. Once the invasion got under way we committed ourselves to the use of large numbers of troops and great stores of supplies. Any let down or crack-up in the supply trains could prove fatal.

Your job is to see to it that there is no shortage of anything needed to make the invasion swift and sure. We do not want another Bataan or Corregidor.

Get that extra War Bond today. Show that you are with our boys in this critical hour of invasion.

THE EDITOR

Mine Floats Ashore in Ireland and Kills 20

BELFAST, NORTHERN IRELAND.—A mine floated ashore and exploded near the west coast village of Donegal, killing 20 men and injuring five. Two others are missing.

A large crowd had gathered near the mine and several men were trying to loosen nuts of the explosive with monkey wrenches. Others were prodding it with sticks. The explosion shattered windows in village houses and was heard for 50 miles.

Two-Year-Old Boy Kills Rat After Father Fails

ATCHISON, KAN.—Sam Munson of Atchison had been trying for days to kill a rat that he had seen around his home. No luck.

One day he was cleaning the furnace. His two-year-old son Mike was watching him and he also was pounding a poker, aimlessly, on the floor.

Suddenly a big rat jumped out from a hole and ran right under Mike's descending poker — kerplunk!—for a lethal blow.

Cadet Pilot Goes From Grand Opera Arias to Air

MAXWELL FIELD, ALA.—From arias to the air is the story of Aviation Cadet James Pease, who is taking pre-flight training at Maxwell Field. March of this year the 27-year-old aviation aspirant of Franklin, Ind., was adjudged one of the winners of the Met's audition of the air, heard over the National Broadcasting company. Cadet Pease hopes to achieve fame in the airways of war now.

Minute Make-Ups
By GABRIELLE

The square contour needs softening. Apply your rouge just under the eyes. Blend it out towards the hairline. Put the accent on a curved line for eyebrows. Dramatize the mouth, curving the corners up a tiny bit. Wear oval shapes in earrings. Upswept hair and an irregular hat brim gives the illusion of curves and soft shadows!

THE LEAST WE CAN DO FOR HIM— IS TO DO MORE IN SEPTEMBER!

Here's what YOU must do to Back the Attack

NOW, as America goes all out for the INVASION — *your dollars must join the fight, too!* For the very least you can do for your country—and for your loved ones doing the fighting—is to invest in MORE War Bonds in September.

Think of Jim fighting with Eisenhower . . . or Bill with MacArthur in the Solomons . . . or Bob up in Kitka. They've given their pledge to fight—and die if need be—for their country. They're ready to *go all the way.*

And we at home must see them through *all the way,* too! That means every individual in the country who earns a wage or draws an income or has accumulated funds must invest in at least one EXTRA $100 War Bond *if he can possibly do so.* Those who *can,* must invest more. This in addition to your regular War Bond subscription.

Yes, the least you can do for your men in service is to do MORE in September, MORE in the safest securities in the world—U.S. Government War Bonds. But do it now—it's for the INVASION!

THE OLD JUDGE SAYS...

"Your tires are in good shape, Judge...ought to last you at least another 5,000 miles."

"I've been very careful of them, Jim, since I learned how much the government needs rubber. Only drive when I have to...keep her under 35 an hour and have the tires switched around every 1,000 miles."

"Me, too, Judge. Pretty tough spot we were put in gettin' our supply of rubber cut off just when we needed it most. But, we'll be gettin' plenty of synthetic rubber real soon. Say, is it true, Judge, that the beverage distilling industry has a part in producing it?"

"Yes, a very important part, Jim. That industry's facilities for producing grain alcohol make it possible to include 200,000 tons of rubber from grain in the government's 870,000-ton synthetic rubber program. Pretty important contribution to our war effort, isn't it Jim?"

"It certainly is, Judge. Wonder how many people really realize it?"

Conference of Alcoholic Beverage Industries.

Hixburg

Hixburg, Sept. 14.- School is in full swing again and the buses are crowded as usual.

EXPECT MORE GOODS FOR CIVILIANS SOON

Civilians will soon get more cooking utensils, lamps, lanterns bed springs, innerspring mattresses, non electric razors, razor blades, plated silverware, brushes, nails, tacks, radiators, furnaces, screen cloth,and other kitchen and housenold articles as a result of a recent WPB directive, which reserved a portion of the production of approximately 30 types of products for civilian use.

Enough to Go Around

Now, for the first time in years, both farmers and manufacturers can work for the biggest possible yield without thinking about the market. This year they can sell all they can produce.

As things look now, this condition is due to keep up for some time, but we can't count on its lasting forever. *Certainly nobody wants a prosperity built on war!* So it's high time that everybody concerned—and that is *everybody*—gave some thought to keeping things running after the war.

You're busy, we know. So are we. The important thing right now is seeing that there's enough of everything to go around. But we've been devoting a little attention to the problems of the future, too. We feel that the people who have the producing job to do can contribute a lot to the solution of those problems.

And we hope that you, too, busy as you are with growing more food than this country's ever produced, will be turning these problems over in your mind. For if America's farms and manufacturers, working together, can't find a way to keep the richest country on earth producing enough for everybody, and let the producers make a living in the process—if they can't, why then, who can? *General Electric Co., Schenectady, N. Y.*

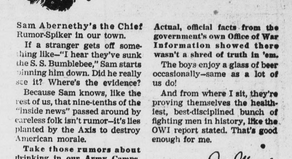
GENERAL ELECTRIC



From where I sit ...

by Joe Marsh

Sam Abernethy's the Chief Rumor-Spiker in our town.

If a stranger gets off something like—"I hear they've sunk the S. S. Bumblebee," Sam starts running him down. Did he really see it? Where's the evidence?

Because Sam knows, like the rest of us, that nine-tenths of the "inside news" passed around by careless folk isn't rumor—it's lies planted by the Axis to destroy American morale.

Take those rumors about shrinking in our Army Camps.

Actual, official facts from the government's own Office of War Information showed there wasn't a shred of truth in 'em.

The boys enjoy a glass of beer occasionally—same as a lot of us do!

And from where I sit, they're proving themselves the healthiest, best-disciplined bunch of fighting men in history, like the OWI report stated. That's good enough for me.

Joe Marsh
